

*Instructional Support:
A Foundation for Learning*

At Calcium Primary School there are a wide variety of instructional programs and support services, in addition to the regular classroom, which benefit our children and allow them to succeed, excel and enjoy learning in an inviting, accepting environment.

- ♥ *Library Media Program*

- ♥ *Academic Intervention Services*
- ♥ *Health Education Program*
- ♥ *Art, Music & Physical Education Classes*
- ♥ *Special Education Services*
- ♥ *Reading Recovery*
- ♥ *Literacy-Collaborative Classrooms*

*Ft. Drum
A Part of Our Lives*

Because our School population is comprised of a significant number of military children, Ft. Drum serves as a very positive and integral part of our school community. Ft. Drum provides our school community with a wealth of support for our educational programs. From the assistance of the Public Affairs Office in helping plan various events and ceremonies, to the numerous individual family members who volunteer in the classroom and serve on committees, we have been richly rewarded by their presence.

Calcium, A Wonderful Slice of the World

We are fortunate at Calcium Primary to have many students who come to us from various places in the world. Being a school with 80% of the population associated with the military, we have been richly rewarded with a "Rainbow Coalition" of multiculturalism. We celebrate our differences and appreciate our similarities. Our local families, also, provide our school community with a rich heritage of values and traditions.

The Learning Environment

Our commitment to provide a safe, clean, orderly, inviting and nurturing environment promotes the success of each member of our school community.

As facilitators of learning, Calcium teachers use a variety of strategies to enhance academic achievement, address the diverse needs of students, and maintain a favorable learning environment that provides each student an opportunity to apply that knowledge.

Developing High Expectations Through Positive Self-Esteem

An important part of our program at Calcium Primary is the development of self-esteem. Our school environment fosters pride in all accomplishments of children: academic, social, and emotional. We encourage independence and nurture the self-worth and individuality of each child. Through various schoolwide programs such as "Student of the Week", "Peacemaking/Conflict Resolution Program" and the "Bus Excellence Program," our students are honored continuously.
